

I-35W & Lake St. Reconstruction and Transit Station 43rd St to I-94

Description

MnDOT, Metro Transit, Hennepin County, and the City of Minneapolis will embark on a major reconstruction project along I-35W between 43rd Street and downtown Minneapolis.

Summary of work

- Constructing of a new online transit station at I-35W and Lake Street
- Building new exit ramps from northbound to 28th Street and southbound to Lake Street
- Reconstructing the pavement and bridges in the corridor
- Updating existing pedestrian bridges, sidewalks, noise walls and storm sewers.

Project Schedule

Summer 2017 – 2021

Benefits

- Improved transit service on I-35W and Lake Street
- Better access to the Lake Street Business District
- Updated pavement and bridges
- Enhanced mobility and safety on I-35W
- Improved accessibility on local street system.
- Enhanced bicycle and pedestrian movement crossing I-35W

Cost: \$265 million
